

Thioplast G131

Liquid polysulfide polymer with thiol end groups (MW > 1800)

The pronounced flexibility, even at low temperatures and the high elongation at break in combination with Thioplast® G's inherent chemical resistance makes this grade the best choice for the aerospace industry and industrial applications in general. Formulators tailor properties like pot-life, tensile strength, adhesion and elongation at break by choosing from various compatible plasticizers, fillers and other additives. The viscosity, degree of branching and SH content can easily be adjusted by blending this grade with others to generate your tailored Thioplast® polysulfide.

CAS number
68611-50-7

Characteristics

Appearance	Brownish liquid polymer
Average Molecular weight, relative to SEC standard	5200-6500 g/mol
Branching, calculated on mol% TCP	0.5 mol%
Flash point	≥ 230 °C
Free sulfur	0.01-0.1 %
Glass point	~ -55 °C
SH content, related to viscosity/Molecular weight	1.0-1.3 %
Viscosity, 25°C	80-145 Pa.s
Volatiles	≤ 0.5 %
Water content	≤ 0.35 %

Notes:

Typical properties, not to be construed as product specifications.

Applications

Thioplast® G131 is used to formulate highly flexible and elastic sealants being used in Aerospace applications with best performance in Jet Fuel resistance, high Nobel Gas retention and low moisture vapor permeability. Furthermore, Thioplast® G131 is used in highly flexible sealants with good UV-resistance being used in construction applications. Recommended use in combination with Managanese(IV)oxide curing agent (5.3-5.6 g MnO₂/100g).

Storage

Store the container in cool and dry area, keep it closed when not in use. Shelf life under appropriate storage conditions min 3 years.

Packaging and transport

Thioplast® G131 is available in 200 Liter drums, 1000 Liter IBC and 20m³ ISO Bulk.

Safety and handling

Full information on the safe handling is available in the Material Safety Data Sheet (MSDS). Further details are available upon request.

All information concerning this product and/or suggestions for handling and use contained herein are offered in good faith and are believed to be reliable.
