

Dimethyl Ether (DME)

XPS Industry

DME is preferred blowing agent used in XPS industry due to its non toxic and environment friendly nature, high solvency power and flexibility to blend with other blowing agents.

Benefits:

	Economic	Functional
Flexible co-blowing agent with high solvency power – Elimination of Alcohol, 152a to a large extend	✓	✓
Non toxic, and environmental friendly gas		✓
Improved process stability	✓	✓
Improved Density and Lambda values	✓	✓
Reduced working capital and warehouse costs	✓	✓
